SAMPLE CLAUSE

Approved Samples

1.1 In case where Supply Order (S.O.) stipulates samples to be approved by the indenter before bulk manufacturer, the supplier shall submit, within one week of receipt of S.O., three (3) identifiable sets of samples as per contract specification for indenter s approval through the Inspecting Officer. Each set shall contain three nos of samples each depicting indeterminable parameters such as shape, size, makeup, finish and workmanship.

1.2 On receipt of the samples, the inspecting Officer shall examine the samples for size/dimensions, constructions of fabric (where applicable), and mass (wherever applicable) to verify if they are as per required specification and if found satisfactory, shall forward the same to indenter for his approval in respect of the indeterminable parameters.

1.3 In case indenter desires that advance samples to be submitted before placement of supply order, the supplier shall submit samples as above direct to the indenter and submission of samples through the Inspecting Officer will not be necessary.

1.4 In case these parameters meet the requirement of indenter, he shall liable and seal the samples with remarks as Approved or Not Approved. Indenter shall remain one set of samples with him, forward one set to the Inspecting Officer concerned and the balance one set to the supplier for his guidance. Since approval of single sample will not give adequate indication of the variation in shape, size, make up, finish and workmanship etc., approval of just one sample in a set will not be accepted. It is, therefore, necessary that at least two of the three samples meet the approval of the indenter to depict the acceptable variation in indeterminable parameters.

1.5 Samples approved as above shall be known as Approved Samples.

1.6 In the event of indenter having a repeat order under the current R/C on the same supplier, the sample approved in the earlier S.O. can be adapted against the subsequent S.O.

2.1 Failure to submit the sample by the stipulated date or in the event of the samples being rejected by the Inspecting authority or by the indenter, the S.O. shall be liable to be cancelled at the risk and expense of the contractor without any further reference to the supplier. The purchaser shall also be entitled to take contractual/administrative and other remedial measures including short-closure of the rate contract.

2.2 During manufacturer/inspection of the stores before, it shall be ensured that offered/accepted lot shall be similar in appearance, shape, size, make up, finish and workmanship etc., when compared with the approved samples.

Colour	White
Method	AATCCC-110 (Whiteness of textiles)
Illuminant Observer	D 65
Standard Observer	10 Degree
Whiteness Index (WI CIE)	140 $\pm$ 10

Interpretation of Results:

- If the sample meets the WI CIE, then sample is acceptable
- If the sample does not meets the WI CIE then sample is unacceptable

Note-1: Absorbance/reflectance/transmittance are affected by surface characteristics feature Of the substrate.. Therefore comparison should be mode between samples of same type i..e..,, identical fabric construction parameters and filament/fiber composition

Note--2: If there is a discrepancy a committee of experts can be constituted to take final decision on the requirement of whiteness property by visual assessment.

Note-3: Test should be carried out after proper conditioning as per AATTCC 173..
